and Industrial Aerodynamics 63 (1996) 193

JOURNAL OF wind engineering AND industrial aerodynamics

Author index to volume 63 (1996)

Charvet, T., Hauville, F. and Huberson, S., Numerical simulation of the flow over sails in real sailing conditions 63 (1996) 111
Cyr, S. and Newman, B.G., Flow past two-dimensional membrane aerofoils with rear separation 63 (1996) 1

Day, A.H., Sail optimisation for maximal speed 63 (1996) 131

Fallow, J.B., America's Cup sail design 63 (1996) 183
Fiddes, S.P. and Gaydon, J.H., A new vortex lattice method for calculating the flow past yacht sails 63 (1996) 35
Flay, R.G.J., Locke, N.J. and Mallinson, G.D., Model tests of twisted flow wind tunnel designs for testing yacht sails 63 (1996) 155
Flay, R.G.J., A twisted flow wind tunnel for testing yacht sails 63 (1996) 171

Gaydon, J.H., *see* Fiddes, S.P. 63 (1996) 35

Hauville, F., *see* Charvet, T. 63 (1996) 111
Hedges, K.L., Richards, P.J. and Mallinson, G.D., Computer modelling of downwind sails 63 (1996) 95
Huberson, S., *see* Le Maître, O. 63 (1996) 77
Huberson, S., *see* Charvet, T. 63 (1996) 111

Jackson, P.S., Modelling the aerodynamics of upwind sails 63 (1996) 17

Le Maître, O., Huberson, S. and Souza de Cursi, J.E., Application of a non-convex model of fabric deformations to sail cut analysis 63 (1996) 77
Locke, N.J., *see* Flay, R.G.J. 63 (1997) 155

Mallinson, G.D., *see* Hedges, K.L. 63 (1996) 95
Mallinson, G.D., *see* Flay, R.G.J. 63 (1997) 155

Newman, B.G., *see* Cyr, S. 63 (1996) 1

Richards, P.J., *see* Hedges, K.L. 63 (1996) 95

Souza de Cursi, J.E., *see* Le Maître, O. 63 (1996) 77
Sugimoto, T., A theory for inextensible and high aspect-ration sails 63 (1996) 61
